Benefits of Using **THE LUXE I Signature Collection**

These tiles are renowned to be Pakistan's Only Real Full Body Porcelain tile. As it has less than 0.5% water absorption, this improves strength and durability.

Firing at higher temperatures and using more refined clay creates denser porcelain tiles, which if installed correctly ensures durability for decades.

Owing to the non-porous nature of this tile, they are resistant to stains and fading.

Having low water propensity, these tiles are easy to maintain.

It is resistant to household chemicals thus it maintains its color, design and surface finish for a longer time.

The installation of these tiles is ideal, easy and hassle-free.

Lapato Polish:

Lapato Polish tiles have a softly polished finish, featuring a higher shine than matt tiles but a gentler finish than a traditional polished porcelain tile. It is a perfect balance between a matt and polished tile. Tiles with this finish tend to be more slip resistant than fully polished porcelain tiles. Can be used on both Wall and Floor.
